Ali Elgharabawi

CREATIVE TECHNOLOGIST · FULL-STACK & AUTOMATION

I design and build fast, distinctive digital products, from premium websites to internal systems and AI automations, and I make complicated things feel simple. 8+ years of graphic design, a ~100K-follower content creator, and a self-taught developer shipping real products since 2019. Most recently CTO at Qiadah Car Rental, where I built the company's systems from the ground up. 24 projects shipped and running in real businesses.
